

Product: Hydrolized Keratin

Standard:

Sensory characteristics	Appearance	Light yellow free flowing powder
	Flavor	The typical flavor of hydrolyzed animal protein
Chemical and physical	Moisture (%)	≤8.0
	NaCl (%)	≤50.0
	Total nitrogen (%)	≥7.0
	pH value (10% solution)	4.0~5.0
Sanitation index	Total plate count (cfu/g)	≤5,000
	Coliform Group (MPN/100g)	≤30
	3-MCPD (ppm)	≤1
	Heavy metal (As Pb,ppm)	≤20
	As (As As,ppm)	≤2.0

Package and storage:

Packing: 20kg/bag (Net weight: 20kgs; Gross Weight:: 21kgs)

Wrapper: Kraft bag

Size of the outer carton: 700mm*500mm*150mm (17tons/20'FCL)

Storage: seal up and store it in dry place at normal temperature. Use it up as soon as possible after unsealing it.

Shelf life:18 months

Application:

- Pet food as palatability enhancer
- Feed
- Culture medium
- Hair care
