

Product name: Ethyl Hexyl Glycerin**CAS#: 70445-33-9****EC Number: 408-080-2****HS Code: 29420090**

Appearance	Clear Colorless liquid
Odor	Odorless
Purity	≥99.00%
Density	0.95 g/ml
Boiling Point	> 285 °C
Flash point	152 °C
Refractive Index	1.451
Viscosity	145 mPas
Solubility	Approx. 1g/L

Ethyl hexyl glycerin is a versatile and multifunctional additive, as well as a very effective active component in deodorants. It has an inhibiting effect on the growth of odour causing bacteria while not affecting the skin. It increases the antimicrobial efficacy of typically used preservatives like phenoxyethanol, pentylene glycol, caprylyl glycol, isothiazolinones and parabens.

- Multifunctional Cosmetic ingredient
- Skin care additive
- Versatile Deodorant active
- Medium spreading emollient
- Improves skin feel of cosmetic formulations
- Effective against odour causing bacteria
- Booster of cosmetic alcohols and glycols
- Enhancer for traditional preservative systems

Recommended Use: Skin care additive and deodorant active 0.3 - 1.0% Can be used in pH range 2-12.

Packing: 25Kg Carboys, 200Kg Drums, 950Kg IBC tanks or per client's requirement. Samples available in 50ml bottles for evaluation.

Storage: We recommend storage in the original packing at or below room temperature (20-30°C). Once opened, the packaging should be closed tight with a blanket of nitrogen.

Transportation: Not classified as dangerous goods.
